STL Tampa would like to take this opportunity to thank you for supporting our WaterAid Charity Fundraiser.

WaterAid is a charity dedicated to helping people escape the stranglehold of poverty and disease caused by living without safe water and sanitation. WaterAid works in partnership with local organizations throughout 15 countries including Africa and Asia to establish sustainable water supplies and latrines, and also works to influence governments' water and sanitation policies to serve the interests of vulnerable people.

With your help our small laboratory was able to raise over \$3000 this year. This will be added to all the other monies collected lab wide throughout the United States and Europe and forwarded to WaterAid.

Thank you again for your generosity.

Warm Regards,

All of us at STL Tampa

STL Tampa would like to thank you in helping to achieve our goal for the Wateraid Foundation.
